Unlike a typical didactic webinar, these sessions will be interactive to stimulate more of the Adult in all of us. Each live session is limited to 100 participants. Each session is 2.5 hours long, and the speaker will invite participants to reflect and interact with others during the time [will this necessarily be in breakout rooms?].

Your registration also provides you with access to the recordings of each speaker’s lecture—in English—on the ITAA YouTube channel after the event.

#### **Cannot attend live on 21-23 May?**

You may purchase a Recordings-Only ticket for full access to all four recordings until 23 June 2021.
